

PEARL ZONE AT IJT 2010 World's Best Collection of Pearls on Display

Of all the exciting zones at IJT, the Pearl Zone especially continues to draw great attention both domestically and worldwide. High quality pearls of all kinds, sizes, shapes, luster, and prices will gather under one roof at IJT, making this the best sourcing venue for pearls in the start of the year.

Exhibits at IJT 2010 (excerpts)

Only the best quality pearls will gather at IJT, as Japan is the world's leading pearl producing country and only the highest quality is accepted in this market. Pearl companies from all over Japan and the world will proudly exhibit their lineup of competitive pearls at IJT. Below are excerpts of especially exceptional pearls to be on display during the show:

Akoya Pearls

You can find the world's top-class Akoya pearls, both as finished jewellery or loose pearls.

Exotic Southsea Pearls

A fine selection of high quality south sea pearls in black, white and gold will be available to answer all your sourcing needs.

Freshwater Pearls

Freshwater pearls enjoy a constant market in Japan, with especially a recent growing need for those of high quality.

Pearls and Gemstone Combinations

Exhibits will include high-design jewellery that combines the elegance of pearls with the glamour of diamonds, sapphires, and other gemstones.

Rare Keshi and Conch Pearls

Rare and hard to find pearls such as those of abalone, conch and mabe pearls will also be in the spotlight at IJT.

FREE Invitation Tickets!

International Jewellery Tokyo (IJT) is Japan's largest jewellery trade show, welcoming 1,350 exhibitors from 35 countries. Organised by Reed Exhibitions Japan Ltd. and Japan Jewellery Association (JJA), IJT and its concurrent watch show attracted 37,936 visitors from all over the world last year. This is the leading venue to see a vast variety of products at wide price points and source for high quality and innovative products. Invitation tickets are available online at: www.ijt.jp/english/
